The all new Techspan plastic welders incorporates advanced technology for even better performance and reliability.

The Techspan® Flooron series flooring welders are very heavy duty automatic welding machines, designed to weld thermoplastic and linoleum floor coverings. Built tough to withstand the most demanding working conditions. Welding temperature is infinitely adjustable up to 620 deg.C. Improved ceramic plug-in element technology provides superior performance and reliability.

A full range of plastic welding systems, nozzles, accessories, spare parts, and technical service.
