

TECHNICAL DATA SHEET - TECHSPAN PLASTIC WELDING RODS

A full range of plastics welding rods
 Manufactured from premium virgin thermoplastic resin
 Specially selected for weldability and compatibility
 with a wide range of plastics
 UV stabilized where applicable
 No reprocessed materials are used
 All size references are nominal only
 A full range of standard colours available

'Pendulum' Welding

Delivery

Delivery time for standard welding rods is usually 2 - 5 days from date of order and payment. Colours, non-standard welding rods, and special orders may take longer. Please check availability of welding rods when ordering.

It is the welders responsibility to ensure the welding rod is compatible with the substrate and that the correct welding temperature and welding technique is used.
